

T.H.E. Center (for **Disordered Eating**) OF WESTERN NORTH CAROLINA

provides education, resources, and support to individuals, families, and professionals concerned with disordered eating, body image, compulsive exercise, nutrition, and recovery from eating disorders.

In **2017-18** through advocacy, connection, and collaboration we have increased volunteerism, professional network membership, support group leader participation, and sponsorship. Board and program development is being refined and streamlined and we are reaching the community we serve with even more of an impact.

Thanks to your contribution we continue to raise awareness and outreach and we are thrilled to share some of our recent accomplishments with you!

Exciting news! We have a new name. It's not official yet but we couldn't wait to share the logo with you. Keep an eye out this summer for our re-branding which includes a new website!
